SUBJECT INDEX

Abelson, In vitro immune receptor gene rearrangements in clonal thymic lymphomas induced by — murine leukemia virus, 341
Adenomyoma, Atypical polypoid — of the uterus. An immunohistochemical study of a case, 292
Adrenal failure, — due to bilateral metastases as the sole manifestation of relapsing lung carcinoma, 634
Adriamycin, Pilot study with — and ifosfamide in small cell lung cancer, 34
——, Differential effect of clofibrate on — cytotoxicity in P388 murine leukemia cells sensitive and resistant to —, 100
——, Combination of cyclophosphamide, — and platinum (CAP) versus 5-fluorouracil, — and cyclophosphamide (FAC) as primary treatment in metastatic breast cancer. Results of a prospective randomized study, 132
AIDS, Post-traumatic localization of HIV-related Kaposi's sarcoma. A case report, 12
——, Persistent generalized lymphadenopathy syndrome VS « AIDS ». Unrelated malignant lymphoma: comparison of presenting clinical and laboratory findings in 88 patients, 222
Anthracycline, 4'-Epidoxorubicin plus verapamil in — refractory cancer patients, 245
——, The rat model in the comparative evaluation of — cardiotoxicity, 533
Antigen, Superficial spreading melanoma with a nodular area: antigenic phenotype of a radial and vertical growth areas, 8
Axillary lymph nodes, Immunohistochemical investigation on — for micrometastases patients with breast cancer using E29, 563

Benzo(a)pyrene, « 4S » Polycyclic aromatic hydrocarbon binding protein. Its role as a — cytosolic carrier to the microsomes of DBA/2N mouse liver, 211
Bladder, An adult atypical fibromyxoid tumor of the urinary —, 79
Bone marrow, Detection of — involvement in patients with cancer, 90
——, — biopsy in the staging of small cell lung cancer, 576
Breast, The role of magnetic resonance imaging in the evaluation of neoplastic lesions of the —, 14
——, « T » category and operable — cancer prognosis, 18
——, Telethermography and — cancer risk prediction, 110
